

ELITE

REAL POWER CT RITMO with heart rate belt & internet racing software

FEATURES

- The only trainer in the World that can accurately simulate a 20% gradient
- Resistance is controlled by magnetic powders that change viscosity when the current is altered running through them
- Interactive with your PC which displays speed, heart rate, power, distance, gradient & time, as well as average/max speed, power, cadence, heart rate & calories consumed.
- Extra large flywheel for greater inertial motion
- 45mm Elastogel roller which is quieter whilst in operation & causes less wear on the tyre
- The new Ritmo feet (comes also with a set of previous standard feet) allow the more realistic feel of the bike oscillating whilst on the road. These feet are adjustable for various pedalling styles
- Quick fix clamping system
- Handlebar mounted console/resistance which can control the software without getting off the bike

INCLUDES

- Heart rate chest strap & coded transmitter
- 5 video races
- 40 Axiom courses (simulated)
- Conconi & Training test software
- Internet racing software
- Travel block
